Milestone Collections

It's true what they say - Don't Blink! One day we're bringing them home from the hospital all brand new, and then suddenly they're taking their first steps, starting Kindergarten, and playing their first little league game. Our babies grow up fast which is why I've created these collections to help document those milestones! As with all of my collections, I will walk you through every step of the process from the time we schedule your session to delivering beautifully curated print pieces for your walls!

I understand that my little clients sometimes require a little warm up time but we will have loads of fun and they might just leave our session calling me aunty Carolyn! I always tell my clients that their images aren't an expense; they're an investment. These images are moments frozen in time forever that you may relive and share. A client once told me no words could describe the emotional rewards of seeing the images we've taken together. The art we create together will live on for many generations to enjoy. And that is what it's really all about!

LET'S GET STARTED TOGETHER

Tiny Fox Photography

Communicating with my clients is a huge part of what I love so much about my business. I remain friends with many of my clients long after I've finished our initial sessions together (and enjoy continuing to document their lives!).

I want to be here for you in every way possible. I encourage you to ask questions, suggest ideas, and play a hands-on role in the planning process. The following is a list of ways to get ahold of me, so you always feel cared for.
